EDUCATION

Purdue University, West Lafayette, IN — GPA: 3.88, Aug 2017 -- Dec 2020

- B.S. in Computer Science with concentration in software engineering and minor in mathematics
- Graduated with distinction, dean's list and semester honors

WORK EXPERIENCE

Simply Binary, Greenville, SC — *Software Developer* — Aug 2020 -- Present

- Worked collaboratively to create domain-specific applications for customers
- Developed distributed and responsive web applications using Phoenix and Vue
- Implemented frontend designs, backend, and database logic

Purdue Envision Center, West Lafayette, IN — *Simulation Programmer* — Jan 2019 – Aug 2020

- Developed interactive simulations for web and desktop using C#/.NET with Unity 3D
- Worked directly with multidisciplinary clients like Purdue Engineering and OSHA
- Implemented DocFX documentation, testing, resident Git debugger
- Project Overview: **https://olivia.sculley.dev/2019/08/envision-center-projects/**

CS 390-VR / CS 390-VRT, West Lafayette, IN — *Teaching Assistant* — Aug 2018 -- Dec 2019

- Lead course development for CS 390-VR under **Gustavo Rodriguez-Rivera**
- Developed and delivered lectures, created and graded assignments, led lab sessions

INVOLVEMENT and PROJECTS

Jun Laboratory, West Lafayette, IN — *Software Developer* — Apr 2019 -- May 2020

- Lead developer on **NERVV**: an open-source, easily-integratable C# framework to visualize and control material-production pipelines in virtual reality with Unity 3D and ROS
- Created a toolkit of novel, VR-based interaction techniques that can be applied to any machine implementing NERVV's framework

Purdue VR Club, West Lafayette, IN — *Treasurer* — Apr 2019 -- May 2020

- Managed finances & events, and hosted learning sessions in A-frame and Unity 3D
- Lead educational club-wide projects and mentored students in VR development

SKILLS

- **Languages:** Elixir, C#, .NET, HTML/CSS, Shell Scripting, SQL, JavaScript, Python
- **Frameworks:** Phoenix, Vue, React, Git, Alpine.js, Tailwind CSS, Unity 3D
